

## CloudIT24 – DIGITAL

### Access and security for your data - your new filing system

**CloudIT24 - DIGITAL is your secure storage with encrypted access worldwide - guaranteed! All types of documents, images, videos and graphics etc. are available in the private cloud repository in the Swiss Datacenter at any time. Access is secured via all available mobile devices. The graduated user authorization provides security and protects your documents.**

A secure connection for data access via HTTPS protocol, encryption creates trust. Access to data/previous versions (history) is possible, so that no data loss occurs even after changes or deletion. The redundant cluster solution guarantees 100% availability.

Our solution with CloudIT24 - DIGITAL is operated in a private cloud (exclusively for each customer) in our certified data center and forms the ideal basic requirement for small / medium-sized businesses with up to 1,000 employees. Don't wait any longer and give it a try!

CloudIT24 - DIGITAL is easy to handle, with just a few clicks your data is synchronized from and to the central repository. The comparison of versions when editing the document by the user saves costs and time.
